

Summer 2026 Graduation

The University of Arkansas Grantham

About University of Arkansas Grantham

Celebrating its 75th anniversary in 2026, the University of Arkansas Grantham has a long, rich history. The institution that would eventually become UA Grantham started out as a technical school for veterans and evolved over time to become a pioneer and leader in continuing education.

Early Years and Focus on Distance Education: 1951-1999

Founded in Los Angeles, California, in 1951 by World War II veteran Donald Grantham, the institution began as the Grantham Radio License School. Its initial mission was to help returning service members who relied on education benefits to acquire the skills and certifications needed for careers in the growing fields of electronics and communications.

The school quickly embraced distance education to serve a geographically dispersed, non-traditional student population, including military members and working adults. It expanded its physical presence with campuses in cities like Washington, D.C., and Kansas City, Missouri, in the 1950s.

In 1961, it achieved accreditation from the Distance Education and Training Council (now the Distance Education Accrediting Commission, or DEAC) and was renamed the Grantham School of Electronics. By 1976, Donald Grantham shifted the institution's focus exclusively to distance education, discontinuing residential operations.

Throughout the 1980s and 1990s, the institution, then Grantham College of Engineering, continued to expand its program offerings to include associate and bachelor degrees in fields like electronics engineering technology and computer science.

Transition to Full Online Learning and Relocation: 2000-2020

A major milestone occurred in 2000 when Grantham began offering its degree programs exclusively online. In 2002, it was renamed Grantham University.

The university's resilience was tested in 2005 when Hurricane Katrina severely damaged its main campus in Slidell, Louisiana. Demonstrating remarkable adaptability, the university relocated and restarted operations in temporary offices in Kansas City, Missouri. Grantham University would remain in the Kansas City metropolitan area for more than 15 years.

Joining the University of Arkansas System: 2021 - Present

In 2021, the University of Arkansas System Board of Trustees unanimously voted to acquire Grantham University. This move, finalized on November 1, 2021, merged Grantham with the System's existing online initiative, eVersity, and officially established the University of Arkansas Grantham.

A public, not-for-profit online university based in Little Rock, Arkansas, UA Grantham now serves adult learners worldwide, offering certificate, associate, bachelors, and masters degrees programs delivered completely online, and relying on a workforce of more than 200 adjunct faculty members and 125 staff distributed throughout the United States.

The integration into Arkansas' premier public university system has strengthened UA Grantham, allowing it to continue and provide high-quality, affordable education to non-traditional students, backed by a strong reputation and a sustained commitment to its founding mission of serving non-traditional students.

Congratulations 2026 Graduates

Dear Graduates,

On behalf of the faculty and staff of UA Grantham, I am honored to congratulate you on your achievement as members of the Summer 2026 graduating class.

We recognize that you are graduating at a time that can feel uncertain. The world around us is constantly shifting, and sometimes it may seem defined by disruption, complexity, and change. Yet even in moments like these, some truths remain constant. Growth is rarely easy. Progress often requires discomfort. And meaningful achievement is almost always the result of persistence through challenge.

What continues to hold true is that hard work creates opportunity. Those who take action — who choose to move forward despite doubts or difficulties — begin by transforming themselves. That transformation does not stop there. It extends outward, lifting families, strengthening communities, and ultimately shaping the world in ways both big and small. Impact starts with the decision to do something, to try, to keep going.

You have told us so yourselves: "A mentor of mine taught me to embrace setbacks as opportunities for growth." and "holding that degree won't be just about a piece of paper. It will be what success feels like knowing that no obstacle, seen or unseen, is stronger than my refusal to quit." are among the most powerful testimonials from the Class of 2026.

Growth is a recurring theme: "What kept me moving forward was the belief that growth is always possible, and that my service did not end when I left the military." "It's never too late to transform oneself and that persistence is a strength that grows with each use." "This journey proved that true leadership is about managing your own growth through adversity." and we couldn't be more inspired.

While it may not seem evident right now, by earning your credential, by surmounting this personal challenge, you have equipped yourself to turn challenges into opportunities. By carrying forward the values you strengthened during your time here, you will be ready to lead with integrity, approach new technologies and changing conditions with curiosity, and use your knowledge to yield progress.

We couldn't be more proud for all you have accomplished. Continue to lift others as you climb. Your voice, your experience, and your perspective all have the power to influence and inspire.

Congratulations, Class of Summer 2026. Now go forward with confidence and make your mark on the world.

Sincerely,

Lindsay Bridgeman, MBA '19
Chancellor

University Timeline

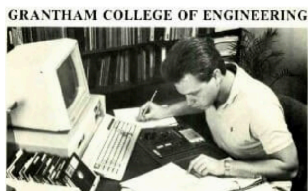

- **1951** The **Grantham Radio License School** is founded by WWII veteran Donald Grantham to serve US service members; the name is later changed to **Grantham School of Electronics**
- **1955** The school opens sites in Washington, D.C., and Los Angeles, CA
- **1961** The school receives accreditation from the Distance Education and Training Council, today's Distance Education Accrediting Commission (DEAC)
- **1968** The institution is named **Grantham College of Engineering**
- **1971** The college moves to Falls Church, Virginia; begins awarding its first associate degrees
- **1976** The college focuses on distance education; closes residential operations
- **1977** The college is the only school in the US offering an accredited Bachelor of Science in Electronics through distance education
- **1990** The college receives approval to operate in and relocates to Louisiana
- **2002** The college becomes **Grantham University**
- **2005** The university relocates to Kansas City, Missouri after Hurricane Katrina destroys all but one building on the Slidell, Louisiana, campus
- **2014** The university relocates to Lenexa, Kansas
- **2016** The university receives programmatic accreditation from ABET for its Bachelor of Science in Electronics Engineering Technology program
- **2020** During the pandemic shutdown, a virtual commencement ceremony is held to honor the Class of 2020
- **2021** The university becomes a remote workplace
- **Nov. 1, 2021** The university joins the University of Arkansas System and becomes **University of Arkansas Grantham**

Outstanding Graduate
Quinteia Williams

Bachelor of Science in Computer Engineering Technology

Mrs. Quinteia Williams is working as a Technical Product Owner and Technology Analyst specializing in data ingestion and provisioning services. After establishing a strong professional background in technical operations and systems optimization, she earned her Bachelor of Science degree in Computer Engineering Technology at the University of Arkansas Grantham.

Quinteia started her academic journey in late 2019, successfully balancing the rigorous engineering program with the demands of a full-time professional career. She went on to graduate Magna Cum Laude from the University of Arkansas Grantham with a 3.8 GPA. This academic excellence, combined with her strong technical background in cloud systems and data solutions, has provided her opportunities to drive senior technical initiatives and data product strategy. Her advanced engineering knowledge helped her to enhance her proven performance in Agile product ownership, technical operations, and cross-functional leadership. She was able to highlight her tactics as a detail-oriented individual by using her studies, analytical acumen, and complex problem-solving skills to meet her objectives, streamline data workflows, and resolve operational issues due to the rapid changes in information technology.

Outstanding Faculty
Errol Waithe

Dr. Errol Waithe is a highly accomplished software developer, application security specialist, and information technology leader with more than 20 years of experience serving both local and government agencies. Throughout his career, he has built a reputation for excellence in software development, cybersecurity, infrastructure management, and information assurance.

Dr. Waithe earned his Bachelor of Arts degree in Computer Information Systems from DeVry University, followed by a Master of Business Administration in Information Security from Keller Graduate School of Management. He later completed his Doctor of Philosophy in Information Assurance and Security at Capella University.

Dr. Waithe has collaborated on the design, implementation, and security of numerous enterprise applications and IT infrastructures. His extensive experience includes planning, designing, installing, operating, managing, and securing complex information technology environments and custom software applications.

As an instructor in Information Systems and Cybersecurity at University of Arkansas Grantham, he is recognized by students for his engaging instruction, detailed feedback, and unwavering commitment to student success. Students consistently describe him as knowledgeable, approachable, and supportive, praising his ability to simplify complex technical concepts and mentor learners through their academic journeys.

Student Service
Sarah Steger

With over seventeen years in higher education, Sarah strives to provide students with the best possible support to help them achieve their personal and professional academic goals. She assists with their student schedules, as well as various issues and questions which arise. A key component of an enjoyable and productive learning experience is completing work on time and achieving good grades, and she helps them navigate this process. Sarah encourages students to complete their first degree and then go on to their next degree, fostering a culture of lifelong learning which is part of our university's continued success. It is rewarding for her to see the progress students make each week and celebrate their accomplishments and as needed, work with them on areas of development. Sarah has been with UA Grantham for almost eight years. She earned her Bachelor of Arts – Major: Economics Minor: History from Western Kentucky University and her Distinguished Scholar Master of Arts in English and Creative Writing online from Southern New Hampshire University.

Kerzel Williams
Conway, Arkansas

UA Grantham Graduate
Bachelors of Business Administration - Operations Management Concentration

Wow, just thinking about this moment brings tears to my eyes! God knows I've been through a lot of adversity with family, friends, job and school, as well. While attending school, I got the chance to meet outstanding people and got the chance to hear their stories and it pushed me to keep going, even when I didn't want to keep going. *I'm just grateful that I had amazing staff here at the school to motivate me even when I couldn't motivate myself. Just the positive feedback the teachers and staff gave me changed the outlook of my everyday life.* So, thank you all for all y'all help for getting me here this far.

“

Erica Chadwick
Woodstock, Georgia

UA Grantham Graduate
Associate of Arts in Business Administration and Management

Finally completing my degree has been one of the most meaningful achievements of my life. It has all been about dedication, believing in myself, and pushing forward through tough times. I struggled with managing my time and I missed deadlines along the way; I often worried about falling behind, but I learned to take one step at a time, hold myself accountable, and to celebrate all my small achievements. Without having family support, I often felt alone. *But with the encouragement from my instructors, they fueled my motivation and kept me focused. Graduating from UAG has proven my passion, determination, and strength in myself and in this program.* It is a personal victory that I will forever be proud of.

”

“

Audrey Bobbitt
Richland, Mississippi

UA Grantham Graduate
Master of Business Administration

My story is no more special than the next person's. It's riddled with days I wanted to give up and days I convinced myself... "what is the point?" But the resounding truth was this, if you quit because of your struggles, no one will blame you except you. And that blame cuts the deepest. So get up, shake it off. And keep going! The days will pass anyway!

“

Sunnie Dorsey
Ada, Oklahoma

UA Grantham Graduate
Master of Business Administration

Being a first generation college graduate means everything I achieved was built without a roadmap. I balanced work, family, and life's unexpected challenges while often doubting whether I truly belonged in higher education. There were many moments I wanted to quit, especially when exhaustion or fear set in. What kept me going was remembering why I started and the encouragement of those who believed in me, especially my family, who never stopped reminding me that I was capable even when I struggled to see it myself. **This degree is more than a diploma. It is proof that perseverance, resilience, and faith in yourself can change the course of a generation.**

”

Making Learning Meaningful

Celebrating the faculty/staff/student connection. Our dedicated UA Grantham faculty and staff truly find joy in teaching, assisting, mentoring and connecting with their students. Here are some reflections on their shared experience.

Faculty/Staff

“I’ve been an Adjunct Faculty member at the UAG College of Business for 16 years. Meeting students where they’re at on their educational journey and facilitating their success is a privilege and an honor! I most enjoy optimizing the student experience by creating an environment of trust and respect where students can be vulnerable and collaborate with me and their fellow classmates.”

Bill Williams, UA Grantham Instructor

Student

“Professor Williams had a significant impact on my dedication to the coursework throughout this class. He maintained open and consistent communication, offered grace when it was truly needed, and still held me accountable for meeting expectations. His personable approach made the course feel supportive rather than intimidating.

During the term, I experienced some unfortunate personal challenges. Instead of making me feel discouraged, Professor Williams checked in, showed genuine concern, and encouraged me to keep moving forward. His support pushed me to stay engaged and continue progressing, even during difficult moments. That balance of understanding and accountability made a meaningful difference in my overall experience and success in the course.”

Amber Heintzig, Bachelors of Business Administration - Human Resource Management Concentration

Faculty/Staff

“Over my 14 years in Admissions and Student Advising I’ve been honored to prepare my students for the challenges they may face, assisting with finding a path of success while ultimately getting to graduation.”

Tammy Anderson, Admissions Representative/Student Advisor

Student

“Tammy Anderson has been in my corner from the very start of this journey. There were so many moments when I felt like giving up, but she was always there with a steady, “You’ve got this, Molly.” I’m endlessly grateful that she was my Student Advisor. She always seemed to know exactly what to say to keep me moving forward, even when I couldn’t see the light at the end of the tunnel.”

Molly Bradley, Associate of Arts in Paralegal Studies

“

“My area of expertise is with UAG’s Medical Coding and Billing. I have been with Grantham and UAG for 15 years. My favorite experience in teaching is that moment when the light bulb goes off and the students are able to connect the dots associated with the complex coding systems. I love mentoring students with a goal of providing new opportunities in their career path.”

Julie Croly, UA Grantham Instructor

”

“Julie Croly has made a difference in my education by consistently providing clear guidance, meaningful feedback, and genuine support that has helped me grow more confident and successful in my coursework.”

Amber Brown, Certificate in Medical Coding and Billing

Faculty/Staff

“I’ve been a Student Advisor 18 years, and I truly enjoy what I do each day! We have such a diverse student population, and getting to know each of my students and see them achieve their goals is very rewarding. In fact, I was also here, and earned a master’s degree here in 2012. I definitely have a little extra insight into the student experience and I look forward to helping you!”

Alec Tillery, Student Advisor

Student

“The person who has helped me during my UA Grantham journey who was the most helpful was my Student Advisor, Alec Tillery. He was always a phone call or email away if I had any questions or concerns about my education here at UA Grantham.”

Mona Reed, Certificate in Medical Coding and Billing

Faculty/Staff

“Getting to know my students and watching them achieve their dreams is what has made my last 20+ years at UA Grantham so incredibly rewarding. Education thrives when you have the right team behind you, and my favorite part of every day is being a part of the support system that helps you succeed. I’m here to ensure you have the tools, guidance, and encouragement to cross that graduation stage!”

Bill Tyson, Student Advisor II

Student

Bill Tyson was my backup battery throughout this entire process. At times, I was on the verge of giving up and Bill would suddenly appear to remind me how well I was doing and to encourage me to keep going. He always offered to talk if I had any concerns or questions. Whenever I had something to ask, Mr. Tyson always responded with the information or the person or department I needed to contact to resolve my issue. He was always friendly and made me feel comfortable talking to him. For that, I want to thank him and wish him all the best.

I agree that completing this degree was a great achievement. It required dedication, perseverance, and resilience. One of the biggest challenges is studying at an advanced age; I finished at 62. Health problems and lack of rest made the journey more difficult. However, I overcame the obstacles to reach this goal, first with God’s help and then with the support of my wife, my children, and my older brother, along with my professors and my Student Advisor (Bill Tyson). For that, I owe you all a huge debt of gratitude! For those who are thinking about completing or even starting your academic career, I ask you to see my example and believe that you can achieve the same results only if you dare to give it a chance and accept the challenge.

Jorge Morales, Master of Business Administration

“

“Education is one key to a fulfilling and happy life. Once earned, it can never be taken from you. It will take discipline and passion for you to accomplish your goal. You can do it and we are here for support! My Master’s is in English and Creative Writing from SNHU, completed in March of 2020. I enjoyed every moment of my experience and I wish the same for you.”

Sarah Steger, Student Advisor

“Sarah Steger has been my Student Advisor during my Associates Degree path. There are not enough words to say how wonderful she is. She has always been in my corner cheering me on the whole time. Anytime I had questions she always responded right away. I am thinking about changing majors when I continue on to get my Bachelors and was advised that if I chose a different major she would no longer be my advisor. I was heartbroken. She has really made a difference in my life. Thank you Sarah for always being there for me and always cheering me on. You are an amazing adviser!”

Charlene Raines
Hazen, Arkansas

UA Grantham Graduate
**Master of Healthcare
Administration**

Completing this degree was a test of persistence as much as academic ability. Balancing a demanding healthcare career, personal responsibilities, and coursework required focus, adaptability, and steady determination. There were moments when the pace felt exhausting, but I learned to move forward by taking challenges one step at a time and staying committed to the larger goal. What carried me through was the reminder that progress does not have to be perfect to be meaningful. Support and encouragement from others, along with that mindset, helped me stay motivated during difficult stretches. **Reaching this milestone reflects resilience, consistency, and a willingness to push through adversity to achieve long-term goals.**

Completing my degree is proof that it's never too late to start or start over. Life threw me challenges—work, family, and self-doubt—but I refused to give up. Every late night, every setback, became a step forward. I'm deeply grateful to my mentor and loved ones whose encouragement reminded me that resilience isn't about never falling, it's about getting back up. **This milestone shows that perseverance, courage, and belief in yourself can turn any new beginning into a triumph.**

“

Lindsay Brown
Bonanza, Arkansas

UA Grantham Graduate
**Certificate in Medical
Coding and Billing**

Completing my Medical Billing and Coding certification at UA Grantham means more to me than just earning a professional credential; it represents perseverance, discipline, and resilience during one of the most difficult seasons of my life. During this challenging time, I prayed, and God blessed me with the strength, motivation, and courage to keep going. **It was one of the hardest things I have ever done, but I stayed focused by envisioning how bright my future will be because of this degree.** This journey taught me that believing in yourself is one of the most important things you can do when starting university. If you truly believe you can do it, then it will be done.

”

“

Alicia Eagleburger
Seymour, Missouri

UA Grantham Graduate
**Associate of Applied
Science in Medical Coding
and Billing**

This is huge for me! Life has thrown me many setbacks while trying to attempt this degree. During that time, my amazing advisor Anna (Walters) helped me get through the hurdles. With all the setbacks, *I have pushed forward because I want to show my kids anything is possible no matter what life throws at you.* Keep your chin up and keep moving forward.

This was not an easy journey, but I did it! With the village I have around me in my family and friends nothing was going to stop me from getting this degree. *All my professors were amazing and I could tell they really do have a passion for what they do.* I have met great people along this journey and I am so grateful for the opportunity to show my children it is never to late to go after your dreams. Thanks to everyone at UA Grantham!

UA Grantham Graduate
Certificate in Medical Coding and Billing

Finishing my Medical Billing and Coding program means a lot to me because it took focus, sacrifice, and steady effort. I managed school while handling everyday responsibilities, and some days were harder than others. Instead of giving up, I worked step by step and stayed committed to my goal. I asked questions, used feedback, and kept improving. **The encouragement from my instructors made a difference and helped me keep moving forward. This experience showed me that persistence and self belief can lead to real success.**

Tijuana Wesson
Ozan, Arkansas

UA Grantham Graduate
Bachelors of Arts in Criminal Justice

Balancing full-time and part-time jobs while being a full-time mom, I pursued my degree with determination. Exhaustion was constant, but I turned lunch breaks into study sessions, late nights into writing time, and early mornings into quiet focus. Juggling work, motherhood, and academics taught me discipline, resilience, and perseverance. Graduation wasn't just a personal achievement—it symbolized sacrifice, strength, and the promise of a better future for my daughter. **My journey proved that with courage and commitment, even the toughest challenges can be overcome.**

”

I started this program at first with an empty mind. Just a kid realizing this is the real world, I'm going to college getting to work with the grown adults and have peers that I could learn from. I realized I'm now one of them. My mom, dad, and sister and brother all helped my through this time. I got to learn new things and turn to them when I was stressing over lessons and needing to get an understanding of things. They are my motivation, they are the reason I am here today and strive to be better than I am now and in future days. *I'm coming back to take my bachelors and hope to have continued success. Thanks again for this amazing opportunity. Love to be a student at UA Grantham.*

UA Grantham Graduate
**Master of Science in
Information Technology**

I honestly used to think success was something reserved for people who had everything figured out from the start. But my journey taught me something different, my master's degree success is built in the moment when you feel like giving up but choose not to. There were times when everything felt stacked against me. Understanding many assignments, concepts didn't click the first time and life outside of school didn't pause just because I had goals. From the start of my course, I kept questioning myself, whether I was really capable of achieving what I set out to do. But at the moment, **I made a decision I wouldn't stop and to keep pushing through each course.**

Dr. Craig Nathanson is a rare gem who, in my experience, provides consistent and thoughtful feedback to every single discussion and assignment, which shows his obvious commitment to making an impact and demonstrates his love of teaching.

”

“

Derek Lavoie
Springfield, Massachusetts

UA Grantham Graduate Bachelors of Science in Cybersecurity

Going back to school in your 30s with a full-time job is no easy feat. Be prepared for long nights, lots of work, sacrificed weekends and holidays, less time with friends and family, and probably lots of caffeine. Taking two classes every eight weeks, non-stop, with rare weeks off in between is exhausting. It will take a lot out of you. You may want to give up or take time off. My advice? Keep going! I'm not trying to discourage you. In fact, I recommend that you take that leap, dive into the books, and do not give up, no matter how exhausted you are. Be sure to put a TON of effort into every single assignment and discussion post. **When you graduate, you'll realize that hard work and sacrifice DOES pay off. The end result is worth it!**

Continue the Celebration of Graduation 2026

Hey new UA Grantham alumni, how did you celebrate your achievement? Use **#UAGranthamGrad** to share your memories, photos, and advice with the class of 2026 and the rest of the world on UA Grantham online social media outlets.

Graduation Distinctions

Undergraduate

At graduation, an undergraduate degree recipient achieving high academic performance is recognized according to grade point average. The honor is determined as follows:

- Summa Cum Laude 3.90 to 4.00
- Magna Cum Laude 3.70 to 3.89
- Cum Laude 3.50 to 3.69

Graduate

At graduation, a master's degree recipient achieving high academic performance is recognized according to grade point average. The honor is determined as follows:

- With Distinction 3.67 to 4.00

Celebrate the Achievement. Represent the Legacy.

You Graduated. Welcome to the UA Grantham alumni family. Now Wear It Proudly.

Your journey as a student may be complete, but your connection to the university continues. Celebrate your achievement and show your alumni pride with apparel and other exclusive merchandise from the online store. Whether you're starting a new career, reaching for a higher degree, or simply commemorating this milestone, find the perfect way to take a piece of your university experience with you wherever life leads next.
